

Whenever I think of skill

The first thought I get is about Construction Skill Institute, which is located in TSIIIC, SEZ green industrial park, polepally. So when I visited CSTI Jadcherla. I met the head of the institute He told me that this institute was established in 2010 and presently running with 5 construction skill trades like formwork, carpenter ,barbender,masonry,construction electrician and welder,presently,around 250 trainees are under training in different trades of different batches. This institute is getting trainees across India. All the training program duration is 90 days. And accommodation and food is given free of cost by the company L&T.

L&T is the biggest infrastructure organization and have huge ever increasing demand of skilled construction workers the entire pass out candidates will be given a chance to work as construction workmen at L&T construction project across India.

This institute has a beautifully maintained green campus with institute building, hostel block and staff quarter inside the campus. Daily training program starts at 8:30 a.m. to 6:30 p.m. all course curriculum designed in such a manner that only 20% is theory class through e-learning and rest 80% is hands on practice session in practice yard. All the course content is approved by construction skill development council of India New Delhi as per latest NSQP (National Standard Qualification Pack).all successful trainees will be awarded with two certificate one from L&T CSTI another from CSTI by third party assessment .

This CSTI has 13 trainers who all are competent, well trained with a construction project experience background and some of them have international certification too. This is a golden opportunity for school dropouts rural youth to get training here and chance to work with national level prestigious construction project. Last year this institute was awarded Vishwakarma award for skill training by CIDC (Construction Industries Development Council New Delhi. By visiting this institute I came to know about the difference between knowledge and skill.
