

ASDC and Autobot Academy launches professional level certification program on Electric Vehicle Design & Development

New Delhi 14th September 2020: Automotive Skill Development Council (ASDC) on Tuesday announced the launch of its new premier training and certification program on Electric Vehicle Design & Development with Autobot Academy. The course will start from 21st September 2020 and the last date of registration is 19th September 2020.

The Program is specifically designed to build the industrial knowledge development experience with most basic concepts for development and calculation of an Electric Vehicle while performing the calculations for one at the same time.

"The future of work is about workers in every industry being augmented with the knowledge that is most relevant to them for every task, at every point in time. Also the automobile industry is growing rapidly and moving towards the electric vehicle. Hence skilled engineers are essential to accelerate this transformation and meet the goals set by companies," said Nikunj Sanghi, Chairman ASDC.

This course will also benefit building your fundamental base and will give a fine guideline that how to select the suitable powertrain for EV applications.

"Gaining knowledge Electric Vehicle Design and Development will impact every possible aspect of the automobile industry. So, if you are working in an enterprise or an Auto industry vertical that is on the leading edge of digitization, I encourage you to take advantage of the Electric Vehicle Design and Development Program that is being made available now," said Ashwini Tiwary, CEO Autobot Academy.

ASDC has pioneered in up-skilling and re-skilling of manpower across the automotive value chain. On completion of this program, candidates will get a Program Participation Certificate from ASDC and SpeakIn.

The key learning benefits from this course:

- Industry-focused modules
- Concept development on EV technology
- Hands-on learning using calculations, problem statements and case studies 20 Hrs of Project-based learning
- Quiz and Assessments Live Q&A session
- Gain a dual certificate from Autobot Academy and ASDC

Who Can Apply for this Program?

- Any Undergraduate students
- Any Post Graduation student
- Any industry professional who is new to EV technology
- Entrepreneurs are interested to gain knowledge of EV

About ASDC:

ASDC, is the first sector Skill Council of India, promoted by the Automobile industry, through Society of Indian Automobile Manufacturers (SIAM), Automotive Component Manufacturers Association (ACMA) and Federation of Automobile Dealers Association (FADA) along with the Government of India represented by Department of Heavy Industry, Ministry of Skill Development and Entrepreneurship, Ministry of Road Transport & Highways and National Skill Development Corporation (NSDC). ASDC envisions making India self-sufficient in availability of skilled personnel for sustaining growth & increasing competitiveness of the automobile industry. ASDC has over 240 training partners, 800 certified assessors, 14 expert groups with 295 industry experts and over 2000 training centres.
